Delete Trusses by Grid

AGACAD
TOOLS 4 BIM
Delete Trusses by Grid

- Select grids (it’s possible to select several grids at a time).
- Choose *Delete Trusses by Grid* from “Truss+” menu.
Delete Trusses by Grid

• A dialogue window will open.
• To delete trusses select Yes.

• If an error message ‘Select grid(s)’ occurs, it means that the user hasn’t selected grids before trying to delete trusses.
